International Exposure / Study Mission

In keeping with its vision - To develop socially sensitive leaders with a global perspective, KMS has been signing MOUs with Universities from across the world. The MOUs cover research and publication collaborations, expertise sharing and most importantly study tours. A team of students and faculty members visit diverse international universities with whom we have a tie-up. While the faculty members conduct sessions in their area of expertise for students of the host university, the students attend sessions conducted by their faculty members. Moreover they gain an insight into the variations in culture and lived experiences of the host culture, thereby broadening their outlook.

Students and faculty members also get the opportunity to intermingle and engage in idea exchange with visiting faculty and student delegations that we host. As we gain in experience, we are spreading our wings in an attempt to ensure that our students develop a global perspective to function effectively in a global context.

Kohinoor Management School (KMS) has a culture of it's own which is inculcated in its students right from the onset of the course. The curriculum is well designed, planned and executed. The faculty is always forthcoming with guidance and support pushing students to perform their best. "Gracious" is the word that defines the faculty of the college. My experience at Kohinoor Management School will remain etched in my academic and professional life. The Yoga and mediation sessions helped me to calm down in the midst of deadlines and assignments. Moreover, numerous opportunities in the form of activities, competitions and celebrations on campus, offered chances to contribute creatively and be a part of various committees, which further enhanced my team playing ability. The dedicated faculty team made sure that they shared the latest developments in their areas of expertise with the students. I owe KMS my success as a professional.
